Third Edition ADRs – Applicability Summary Passenger Vehicles

1. This table seeks to show:

- a. the national standards in force for new model vehicles as at September 2009 and the vehicle categories to which those standards are applicable (see note #);
- b. the dates on which standards not yet in force will come into force, and the vehicles to which they will then be applicable.
- earlier revisions of the national standards that are accepted as equivalent to the standards in force for new model vehicles (refer to relevant standard for acceptable prior rules).

2. ADR notation:

ADR X/00 indicates the original version of ADR X

ADR X/01 indicates the first revised version of a standard where the amendment increases in stringency, includes additional vehicle categories, or changes content significantly. ADR X/02 is the second revision, and so on.

ADR X/..., the ellipsis ... should be taken to indicate that the latest rule is being specified.

3. Vehicle Category Codes:

Codes for vehicle categories and definitions are in Definitions and Vehicle Categories and can be found on web page: http://www.infrastructure.gov.au/roads/motor/design/adr online.aspx>
